

WATER GARDENING

For over two decades, Pond Wiser has been installing, repairing, re-designing, and maintaining water gardens and pondless waterfalls.

Our maintenance plans can be personally customized. The seasonal package includes a spring pond opening, a maximum of ten service visits throughout the warm weather, and late fall winterizing. A yearly program is also available. The twelve month program offers two service calls each month, and also includes a spring opening and late fall winterizing.

As-needed service calls are always available.

LAWN MAINTENANCE

Licensed for Turf Management through the Ohio Department of Agriculture allows us to offer lawn treatments with confidence. Organic products are available.

Once Pond Wiser has tackled your lawn issues, they can provide mowing services. Our prices are individualized, but always include mowing, trimming, sidewalks and driveways cleared of grass clippings, and all debris removed from the property.

AQUATIC MANAGEMENT

Pond Wiser has been licensed and certified for aquatic weed and algae control through the Ohio Department of Agriculture since 2002. Our lake management programs run either from April or May through October., and are available for residential or commercial.

We also install aeration systems and fountains. A winter storage program is available that includes removal of your system, the aerator or fountain is deep cleaned, and stored for the winter. The cost includes re-installation the following spring.

**BORDER PATROL
FOR GOOSE CONTROL**

Agent Vic hails from Big Bend Farm in Millboro, VA and was trained by one of the top handlers in the country. He is a Border Collie that came to live at Pond Wiser Inc in Massillon (Jackson Twp), Ohio in 2012. Vic has been specially trained to control the Canadian Goose population by following special commands. Once a property owner contacts us, a free site evaluation is completed. Pond Wiser offers a variety of goose control options.
