

## Pondering

There were a few frantic phone calls this winter. It has been many years since we have had such a deep freeze. Once February hits, even though there are several more weeks of winter, and we all know Mother Nature can be fickle well into April and even May, we all start thinking spring.

This issue has our registration form for the season. Each year we try to simplify the information, yet we know it

is a lot to take in. Please read this newsletter in its entirety, and then if you still have questions or concerns, do not hesitate to contact us. You have many options when it comes to getting in touch with us. We are on Facebook, Instagram, Pinterest, YouTube, and Google+. We have two email addresses. [dray@pondwiser.com](mailto:dray@pondwiser.com) or [mr.pondwiser@gmail.com](mailto:mr.pondwiser@gmail.com) Our office phone is

330-833-FROG and our customer service cell phone, 330-685-3637, is available for text or calling 7 days a week from 7am to 7pm. Kathy is on LinkedIn too.

Do not ever hesitate to contact us. All messages are answered within 24 hours and most messages on social media are responded to within an hour.

Let's get pondering!

## Lawn (der) ing

We offer lawn mowing and lawn treatments. Our lawn mowing includes trimming, blowing the debris from walkways and driveways, and any clippings or debris hauled away. Our lawnmowing is a \$50 minimum.

The law states if chemicals, whether organic or traditional, are put on a

lawn and the company who puts the chemical on the lawn is paid to do so, they must hold a Pesticide Business License from the Ohio Department of Agriculture and also have be a certified applicator. We are proud to have three licensed applicators and able to legally offer you a five-treatment program for

your lawn. You can choose less treatments if you wish.

Quotes are free.

Lawn treatments are taxable. They are taxed at the rate of where the lawn that is treated is located, not where the owner lives, if that is not the same.

## Goose Control

February, March, and April are the key months for goose control. Vic, our specially-trained Border Collie, is ready to control the growing number of birds on your property. He has been highly successful controlling the geese in our area since he arrived at our office in

2012. Pond Wiser also includes a remote boat, and an approved laser light when working to send the geese packing.

Don't wait until the geese have found their mate and nest on your property. They become quite aggressive then and are much more difficult to

convince they need to leave. Not impossible, just harder.

Like all of our services, we offer goose control for your home and office. Quotes are free and specials are on our mobile app. You must show us the coupon on your phone.

**POND WISER, Inc**

**Maintenance 10, The Wise One:** (1) Spring opening, (1) winterizing and a maximum of 10 maintenance visits during the season. The cost for an average size pond is \$ 750. If you are unsure if your pond size is considered "average", please contact us.

**Maintenance 20, The Wiser One:** (1) Spring opening, (1) winterizing, and a maximum of 20 maintenance visits that can be used anytime within a year period. The cost for an average size pond is \$900. If you are unsure if your pond size is considered "average", please contact us.

**Pond Opening ONLY**

**Pond Closing ONLY**

**Lawn Treatments:** We offer a five-treatment package. Lawn treatments require an additional form. Sales tax is charged according to the location of the lawn being treated. You may choose less than (5) treatments.

**Lawn Mowing:** \$50 minimum charge. An additional form required.

**Lake Management:** Former client's cost remains at 2017 pricing. An additional form required. Quotes are \$100. This cost is reimbursed on your first invoice if our services are used during 2018. An additional form is required.

**Goose Control:** Your property must have a site evaluation. An additional form required.

**Landscape Services:** Please list \_\_\_\_\_
